

National Electrical Code 2023

March 10/
8am-4pm

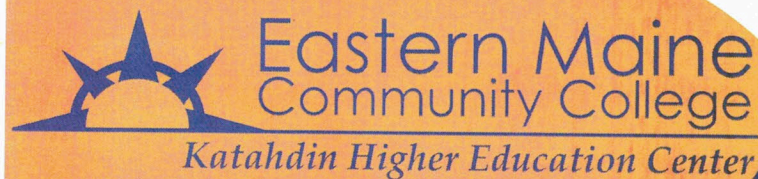

Learn the most up-to-date standards for safe electrical installation and inspection.

Course Description

This course will provide members of the electrical community with an understanding of the NEC's 2023 code updates and the necessary 15 hours of continuing education required for license renewal in the State of Maine. These updates set the standard for safe electrical installation and inspection and protect people and property from electrical hazard. Students will leave this class with a comprehension of the updated NEC requirements, enabling them to provide safe and quality service in the field. Students are required to bring their NEC Code Book to class.

CED-E13-73-PO

Eastern Maine Community College is an equal opportunity/affirmative action institution and employer.
